GW's undergraduate cybersecurity program prepares students for the growing cybersecurity job market by providing educated professionals with the skills necessary to protect our digital infrastructure.

This program is designed for community college graduates with associate's degrees in technology or:

- Currently employed in the field of information technology and seeking professional advancement with a focus on computing technology and/or security.
- Interested in computing and security technology and seeking a career change or personal enrichment.
- Working adults who have already earned an associate's degree or completed approximately two years of college work.

What sets GW's cybersecurity program apart:

- TIMELY DEGREE COMPLETION: Finish your bachelor's degree in 2 years.
- EXPERT FACULTY: Learn from nationally and internationally recognized experts in the field of cybersecurity.
- CONVENIENT SCHEDULE: Evenings and weekend schedule to meet the needs of working professionals.
- CONVENIENT LOCATION: Offered at GW's Virginia Science & Technology Campus in Ashburn, VA and Woodbridge, VA.
- AFFORDABLE: Competitive tuition rate priced with you in mind.
- CUTTING-EDGE CURRICULUM: A technical and hands-on curriculum utilizing state-of-the-art computer lab and virtual environments.
- RECOGNITION: GW has been designated a Federal Center for Academic Excellence in Information Assurance Research by the National Security Agency and the Department of Homeland Security.

The program addresses competencies defined by the National Initiative for Cybersecurity Education (NICE).
