Master's Degree in Sustainable Urban Planning

Graduate Certificates in Urban Sustainability
Climate Change Sustainable Management and Policy
Sustainable Landscapes

Get ahead of the curve. Empower yourself with cutting-edge skills, knowledge of state-of-the-art sustainable technologies, climate change information, applied concepts and best practices in urban and regional planning. Join professionals whose number one goal is to maintain a healthy environment and way of life for neighborhoods, and for regional, national, and global communities.

GW’s College of Professional Studies’ programs in Sustainability are ideal for:

- **city and regional planning professionals** looking to incorporate sustainability into their work
- **contracting/development professionals** seeking how to manage greenhouse gases and other climate change challenges using emerging advanced technology
- **younger working professionals** seeking to launch a career in urban planning

**PLAN • DESIGN • CONSERVE • SUSTAIN**
